Memo: To All Members Working in the ICI Sector

From the Chair of the Provincial Negotiating Committee

As previously reported, your OPTC Negotiating Committee returned to the bargaining table on May 10th & 11th of this past week. They delivered the message to the MCAO Contractors that our membership did not accept the monetary offer for settlement as well as their unwillingness to agree to much needed language changes within some Local appendices. Having said that, after two days of bargaining we have come to terms on a number of language changes as well as an increase in monetary offer for all of the locals throughout the province.

Your committee is recommending acceptance of this latest Offer for Settlement by the Mechanical Contractors and feels it reflects the needs of our membership working in the ICI Sector while at the same time ensuring our presence within the Construction Industry remains strong.

All Locals will be holding ratification votes on May 17th, 2022. Your Local will confirm time and location.

We ask that all members exercise their right to vote.
